ROTTENSTEINER

Our family is one of the oldest wine-growing families in South Tyrol. Our winemaking history began many generations ago, here where the vines grow on the red rock, the porphyry, typical of this region. Our surname is also the namesake of the red rock. Today, Toni, the father, and Hannes, the son, jointly conduct the affairs of the winery, supported by the women in the family. Honesty and authenticity are our most important values in private life and in our work. Founded in 1956, Hans' focus was selling open wines from the winery to Switzerland. In the 1980's, his son Toni changed over to marketing bottled wines, and since 2001 he has been supported by his grandson Hannes. Not only have the grapes from the family's 10 hectares been processed from the onset, but also that of 50 regional grape growers as well. This close cooperation has extended for generations and is essentially responsible for the excellent quality of the wines. Rottensteiner has been consciously committed to the varietal character of the particular wines with a clear focus on the Bolzano varieties Lagrein and St. Magdalener.
