Fun Fact # 1: Supergay is queer owned and operated and they donate a percentage of profits from every bottle sold to local LGBTQI+ organizations in the regions we sell in.

Born from the belief that craft spirits should have more fun, Supergay Spirits was established in 2020. Supergay is handcrafted in small batches and filtered 3 times through activated coconut charcoal to create a distinctively smooth and clean vodka that mixes perfectly in cocktails, and is equally delicious on the rocks. We take our time making Supergay. We only use 100% organic and ethically sourced ingredients. Our vodka is handcrafted the old-fashioned way in small batches in Upstate New York.

“Look for mellow butterscotch sweetness on nose and palate. A mouthwatering saline hint on the finish fleetingly evokes salted caramel.”
